

**FLYING HIGH
ENERGY EXPRESS**

**COMPANY
PROFILE**

COMPANY PROFILE

Flying High Energy Express was established in 2007 when the Philippine Securities and Exchange Commission (SEC) formally issued its Certificate of Incorporation on July 11, 2007. With more than a decade of experience and expertise as a courier and messengerial services company, Flying High Energy Express holds licenses under the Department of Labor and Employment (DOLE), as a DO-174 compliant company, and the Department of Information and Communications Technology (DICT), as a Private Express and Messengerial Services licensed company. It is also a member of the Private Express and Messengerial Association of the Philippines (PEMAP).

Since 2007, we have been servicing **MERALCO** as a trusted courier service provider. We accomplish around 8,000 to 12,000 missions every single day by delivering MERALCO's billing statements and urgent notices.

Our main mission under **MERALCO** is to make sure that every customer receives their billing statements and urgent notices before the due date—this is why our courier service is reliable and speedy. Every time we are given a mission to accomplish, we ensure that we always deliver on time.

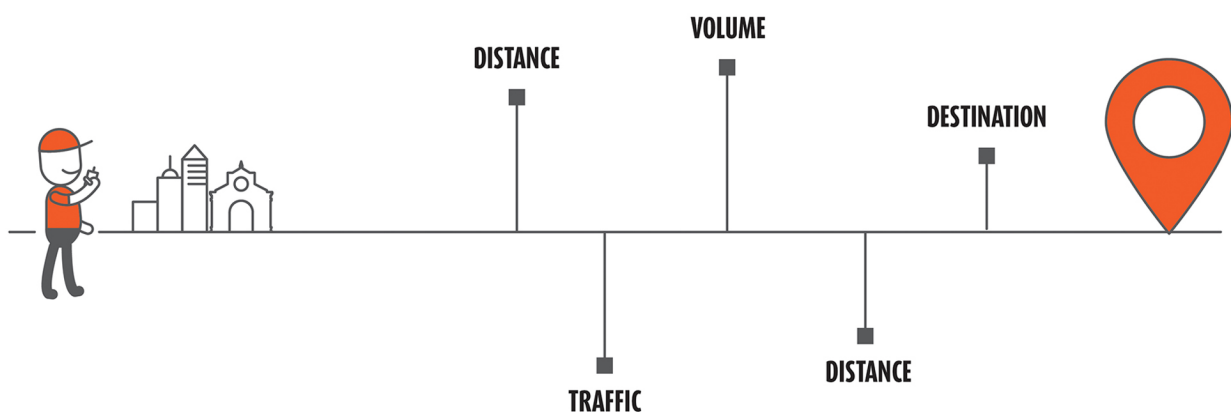

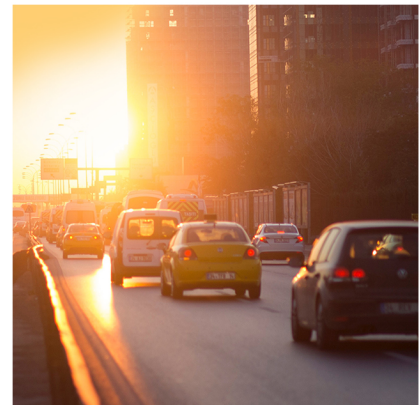

MISSION + VISION

Our main mission at Flying High Energy Express is to provide door-to-door courier and parcel delivery services. Effectively reaching any major city or strategic location across the country, we ensure safe handling, guarantees customer satisfaction, and provides unmatched speedy service.

For over a decade, our company has provided speedy courier services to our corporate clients all over Metro Manila.

We provide the following services to our corporate clients:

1. sorting and labelling of documents
2. door-to-door delivery of billing statements and notices
3. inter-office deliveries
4. all other documents for delivery as required

COMPANY LEADERSHIP

Flying High Energy Express is currently composed of 39 full-time employees led by Xavier Levi Y. Nunag, Chairman & CEO, and Melchor T. Gavin, President & COO. Its board includes Paula Isabel D. Nunag as Director, Klarrisa Ana E. Gavin as Director & Corporate Secretary, and Katrina Rhea E. Gavin as Director & Treasurer. Its workforce includes a variable number of agents and messengers who are strategically located all over Metro Manila to ensure that each mission is accomplished on time.

Each of our agents is equipped with an eagle-eye perspective of the metro, and a sophisticated tracking and tracing system to accomplish high volumes of deliveries daily, weekly, and monthly. We develop and use our own sophisticated tracking system to monitor not only our agents' day-to-day deliveries but also the locations that are currently being reached by our clients.

With our growing team of agents, we can cater to different client requirements—from the speed of the courier service to the volume of deliveries.

Our services can definitely help your company save time, energy, and resources—our track record proves it.

RELIABLE PARTNERS

With **All Transport Network (ATN)** as our main international delivery and freight forwarding partner, we continue to improve on our reach and reliability. As one of the pioneers of the industry in the Philippines, ATN has been providing international freight forwarding services for 30 years to various corporate clients and industries and our company is one of its major business partners.

Flying High Energy Express and ATN are both committed to providing the most sensible delivery and transport solutions—aiming for quality, efficiency and reliability whilst keeping overhead costs down.

High volume, high success rate. This is how we keep our corporate clients and partners strongly satisfied.

CURRENT CLIENTS

MERALCO

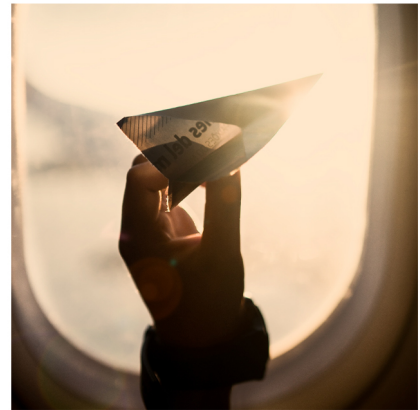

We are responsible for the daily delivery of monthly statements, disconnection notices and product advertisements of MERALCO within Manila and Pasay areas.

ATN LOGISTICS

We have been entrusted to deliver ATN's invoices and official receipts to its various clients, as well as to ensure the pickup of returned erroneous invoices.

LOPEZ BUILDING

We provide messengerial support to the company by delivering and picking-up various inter-office correspondences within the building as well as performing daily sorting of documents.
